

Fund Description and Investment Policy

The InvestCorp Money Market Fund is established for the purpose of creating an investment vehicle that allows investors to participate fully in the short-term debt market of Ghana.

Investment Approach

The Fund is modeled to balance the risk associated with earning competitive returns with capital protection through a rigorous investment approach. This is to ensure that our investors benefit from the current growth and opportunities within this investment universe while keeping investment risk to the barest minimum.

Each stage of the Fund's investment decision process ensures the quality of our portfolio holdings.
