

# InvestCorp Treasury Securities Fund (ITSF) Fact Sheet – March 2026

## Fund Description and Investment Policy

The InvestCorp Treasury Securities Fund is an open-ended fixed income fund (sovereign-only exposure) designed for investors who seek exposure to Treasury bills, notes and bonds or Treasury-backed securities. It presents a more active approach to investment that is well suited for conservative investors who want to invest in safe assets over the medium to long term. It is suited for retirement plans, education and funeral savings, church and school endowments, among others.

## Investment Allocation

The current investment allocation of the Fund is as follows:

## Investment Approach

The Fund aims at all times to construct an optimal treasury portfolio relative to the market - based on value, duration and identified short-term market advances. The portfolio strategy is to diversify among the different types of government securities, tenor and yields. Our approach to investing in Treasury securities seeks to offer:

### Investment Grade Quality

Investments are safe; backed by the full faith and credit of the Government of Ghana

### Prudent Liquidity Management

Active duration strategy to allow for liquidity management and provide opportunities for return enhancement through trading

### Total Return

Periodic income receipt and capital appreciation achieved through active trading strategies and portfolio management

## Historical Performance

	2021	2022	2023	2024	2025	2026 (YTD)
Return <sup>1</sup>	18.42%	-29.28%	21.85%	15.14%	36.58%	9.02%

<sup>1</sup> Annualized return on the Fund

## Growth of GH¢10,000 in the Fund Since Inception

The sudden fall in the value of the Fund is due to the change in valuation methodology from Amortization (HTM) to Mark-to-Market (MTM) methodology as prescribed by the SEC and DDEP.

Disclaimer Policy: The performance of the Fund as shown represents past performance and by no means guarantees future returns. Investment returns and principal value of an investment will vary so that shares, when bought or redeemed, may be worth more or less than the original cost. Current performance may be lower or higher than the performance quoted.
